

ADVANTAGES

- Simple to install – only basic DIY skills required
- Modular – available in various sizes, so adaptable to any wall
- Affordable
- Water-efficient – an adjustable drip irrigation system is included in the price
- By placing the panels side by side, a larger surface area can be covered

SPECIFICATION

The DiaWall is a modular, easy-to-install green wall system that can be flexibly applied to small, medium, or large wall surfaces. Its Velcro-connected panels allow for quick assembly, while the built-in irrigation system ensures even watering of the plants. The system is eco-friendly, cost-effective, and offers an attractive solution for greening both vertical spaces.

Product: DIADEM® DiaWall
 Producer's certificate: A.P.P. Kft.
 Website: www.diadem.com

APPLICATION

Plant ornamental or edible plants, bulbs, and seeds in the pockets (pocket size P11 pot), just like in ordinary pots. Then fix the system to the wall and enjoy your own vertical garden! You can fill every pocket with plants, or leave some empty if you plan to grow spreading plants over time, but make sure soil is in every pocket. The system is easy to install using only basic tools. The modules are made of recycled plastic, offering an eco-friendly solution.

TECHNICAL DATA

	DiaWall										
Distribution of pockets:	1x2	1x4	1x6	2x2	2x4	2x6	3x2	3x6	4x2	4x4	4x6
Dimensions (cm):	21x30	21x55	21x80	36x60	36x55	36x80	51x30	51x80	66x30	66x55	66x80
