

Green Wall
810600 / 810601

ADVANTAGES

- Modular structure
- Low maintenance requirement
- Cost-effective operation
- Custom plant composition
- Applicable on large surfaces
- Environmentally friendly solution
- Design and functionality combined

APPLICATION

The DiaWall VM and VMR product family offers a versatile solution for greening various spaces, including modern offices, hotels, shopping centers, and exclusive residential environments. Outdoors, it is ideal for creating striking green façades and urban installations, while indoors it provides a natural, inspiring atmosphere. Thanks to its flexibility, it can be used from small decorative surfaces to large-scale, iconic green walls.

SPECIFICATION

The DiaWall VM and VMR green wall systems are vertical plant surfaces made from prefabricated elements, suitable for both indoor and outdoor applications. The system features integrated drainage and optional automatic irrigation, with customized plant installation and attachment to new or existing wall structures.

Product: DIADEM® DiaWall VM / VMR
Producer's certificate: A.P.P. Kft.
