

Sedum tray  
500128

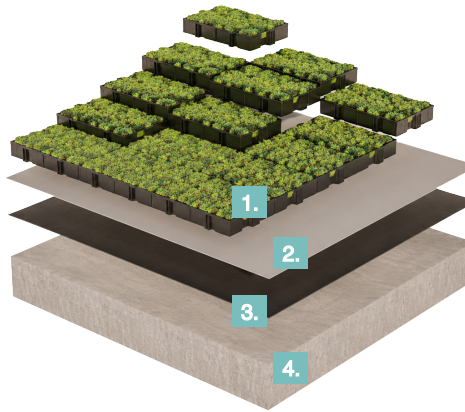

## ADVANTAGES

- Economical solution
- Guaranteed crowd association reared under controlled conditions, providing a beautiful green roof
- Resistant, hardy vegetation
- The tray design ensures quick installation
- Due to the tray design, no additional erosion control is required on sloped roofs
- Can be installed regardless of the season
- With our company's professional support, self-installation is possible
- Due to its weight, it can be used on professionally constructed wooden and steel lightweight structures
- During possible roof maintenance or waterproofing repairs, it can be locally dismantled and reassembled with minimal cost and without damaging the vegetation and trays
- During long transportation, the chance of plant damage is minimal with the optional use of spacers

## DIADEM® BUILD-UP

1. DiaTray sedum tray (sedum + SEM growing media)
2. VLU-300 mechanical protection geotextile
3. root-resistant waterproofing membrane
4. additional layers

## SPECIFICATION

Tray of Sedum includes a mat of at least 6-7\* different Sedum species. Dimensions: 58,8 x 38,8 cm, height: 8 cm.

Product: DIADEM® DiaTray  
Producer's certificate: A.P.P. Kft.  
Website: [www.diadem.com](http://www.diadem.com)

## TECHNICAL DATA

Sedum species, number of species:	6-7*
Dimension (cm):	58,8 x 38,8
Height (cm):	8
Weight (kg/m <sup>2</sup> ):	approx. 55-60 (dry condition: approx. 35)
Vegetation coverage (%):	min. 80
Delivery:	on pallet
Storage:	can be stored for a long time when removed from the pallet without installation

\*As a result of changes in climatic conditions, 1 or 2 of the species planted may become dominant, while some species may disappear.

Distribution of sedum varieties planted:

Sedum Hispanicum: 80%  
Sedum Album: 10%  
Sedum Acre Golden Carpet: 5%
